Subject: Addendum #3

**REFERENCE: P038-23 ELECTRIC SYSTEM CONSTRUCTION CONTRACT (LABOR ONLY FOR NON-SITE SPECIFIC CONSTRUCTION)**

This Addendum forms part of the contract and clarifies, corrects or modifies original proposal document.

Utility poles are to be installed using best industry practices and industry standard equipment. With the aim of maximizing BPUB rate payer funding, improving efficiency, and to avoid damaging underground utilities, the contractor's electrical crew must utilize hydro excavation equipment when digging holes.

**Question 1:** Proposal document page BS-26, section 2.2 Preparation and submittals instructions, its states that a maximum of 50 pages front and back are allowed. Does this include the actual BPUB documents? The BPUB documents alone are 126 single-sided pages minus the cover pages and table of contents.

**Answer 1:** Please disregard this part of the section 2.2: "Submittals are limited to one hundred (100) letter size pages (front and back, for a total of fifty (50) sheets of information) with minimum font size of 10. Any submittals exceeding the 100-page limit including all supplemental information will be disqualified."

The signature of the company agent, for the acknowledgement of this addendum, shall be required. **Complete information below and return via e-mail to: [hlopez@brownsville-pub.com](mailto:hlopez@brownsville-pub.com).**

I hereby acknowledge receipt of this addendum.
