# REQUEST FOR PROPOSAL

## For Stand Alone or Through the Wall Kiosks

### **OBJECTIVE**

The Brownsville Public Utilities Board (BPUB) is soliciting competitive sealed proposals from interested firms to provide our customers the functionality to pay their bill using various channels. The BPUB is reviewing current payment channels as well as new channels that may be available.

After responses to this Request for Proposal (RFP) are received, the BPUB will evaluate and award the qualified firm whose proposal is most advantageous to the BPUB with price and other factors considered.

### **GENERAL BACKGROUND**

The BPUB sends monthly bills for approximately 90,000 -100,000 service points in the City of Brownsville using Cayenta (Harris) Revenue Management Solution. We bill 21 cycles per month and have approximately 60,000 customers. One customer may be responsible for multiple accounts; and each account may have multiple services. Services are billable items and may be a service point (a meter) or an item such as a security light.

We currently offer our customers the ability to have a monthly auto-debit of a checking or savings account, pay by credit card over the phone (handled by an IVR), online bill payment, as well as twenty-nine (29) off-site, walk-in payment locations. Some of our partners are: American Payment Systems, Fidelity Express, Paymentus and Wells Fargo Bank.

### **HIGH TECHNOLOGY COMPETITIVE SEALED PROPOSAL PROCUREMENT**

#### **PROCESS (Texas Local Government Code Chapter 252)**

The BPUB will comply with all Texas State Procurement laws for public utilities/Cities relating to high technology electronic data processing and telecommunications systems. The BPUB will select the most qualified firm whose proposal is most advantageous to the BPUB with price and other factors considered. Once this selection has been made from this RFP process, the firm will be required to execute a personal technical services contract.

### **PROPOSAL INFORMATION**

The original proposals will be opened and only the Firm's name read aloud at the BPUB Purchasing Office located at 1155 FM 511, Olmito, TX 78575. All proposals will be managed by BPUB in a manner that avoids disclosure of the contents to competing firms and keeps the proposals confidential during any negotiations. All proposals will be open for public inspection as stated in the open records act, after the contract is awarded; however, trade secrets and confidential commercial or financial information in the proposals specifically identified by the firms will not be open for public inspection. Accordingly, all pages in the proposal that the Firm considers to be proprietary and confidential should be appropriately marked.

The BPUB may require more than one meeting be held with the top three (3) rated Firms. **SECTION I – SCOPE – STAND ALONE OR THROUGH THE WALL KIOSKS**

	<b>Description</b>
1.1	BPUB desires to purchase payment ‘kiosks’ that will provide customers self-service utility bill payment options using cash, checks, and credit/debit cards. Most kiosks will be indoor units located inside BPUB or other facilities within the City of Brownsville. At least one kiosk will be located outside in a “through the wall” drive-up building behind the Administrative Building of the BPUB.
1.2	The kiosks will accept currency (U.S. Dollars only) with an internal secure safe and provide no change back to the customer. It is preferable the bill acceptor unit be able to accept a batch of bills rather than one bill at a time (similar to the acceptor units in bank ATMs). The kiosks will also accept credit/debit cards, and checks.
1.3	The kiosks will transmit payment transaction data in real time to the payment processor of BPUB’s choice and to the billing application Cayenta Utilities through an API. The ability to interface and accept payments from additional municipal payment systems (municipal court, traffic, etc) is preferable.
1.4	The kiosks will be delivered and setup with the selected hardware configuration. The plan is that the purchase and implementation will be based on a two-phased approach. Phase I is to purchase at least two kiosks, one for deployment at the drive-up building and the other at a third party location. Phase II will be the purchase and deployment of additional kiosks within the City of Brownsville.
1.5	The resulting contract for kiosks will include hardware components, operating system software and application software that allow the operation of the kiosks as a separate unit (i.e. stand-alone), a networked unit in a local area network (LAN) or a networked unit in a wide area network (WAN), an integrated part of a computer system, or any combination of the four.

**SECTION II - KIOSK REQUIREMENTS**

	<b>Description</b>
2.1	The kiosks must have a finish that can be easily painted or wrapped with a graphic wrapper. We also desire the ability to add branding and logos.
2.2	The paint must provide excellent resistance against normal wear and should be compatible with use in a typical retail store environment. The enclosure should be made of metal or a metal composite that is applicable for this type of device.
2.3	The “through the wall” drive-up kiosk should be weather proof. The components should be sealed through the face of the kiosk as is customary with Automated Teller Machines (ATMs) to create a weather resistant/water proof exterior. The display screen should be visible in harsh daylight and may be covered with a protective ‘curtain’ while not in use.
2.4	All components should be easily accessible and exchangeable by our internal support staff, whether through the front or rear of the kiosks.
2.5	The kiosks will be compliant with the Americans with Disabilities Act (ADA). All computer and peripherals must be easily accessible by individuals with disabilities.
2.6	The kiosks’ electrical and cooling must meet or exceed all electrical and cooling requirements necessary for computer components and enclosed hardware. It must use standard 110-120v.
2.7	The kiosks must meet the Underwriters Laboratories requirements (i.e. UL 291 certification for all 24 hour ATM’s). The safe of this unit must also meet or exceed this

	legally required certification.
2.8	The kiosks are to be delivered with all display screens and logos already in place and ready for final testing by BPUB staff. All screens must also be offered in Spanish.
2.9	Customers should be able to pay a different amount than the amount due. Explain how your system accommodates this.
2.10	Customer transactions that are not completed within a pre-determined time limit should be timed out or customer should be warned of time limit approaching.
2.11	Customers should be able to access their account by using any of the following methods: 1) an account access card, 2) a look up feature with either name or address using a verification of either a PIN or other personal identifying information associated with the account on record. Explain how your product will meet these needs.
2.12	Please describe the transactional data flows to/from clearing houses, bank accounts and the BPUB, including estimated timing, for each of the activities listed below. Respondent can use drawings or flowcharts as needed to aid in their response: <ul style="list-style-type: none"> <li>• Debit from a checking/savings account.</li> <li>• Credit card payment</li> <li>• Cash payment</li> </ul>
2.13	Receipts must be issued and provide for functions that include a presenter/retractor, variable ejection cut lengths (programmable), full and partial cut options, and alert sensors for jams and low paper warnings.
2.14	Checks may be processed via a reader scanner depositor for check 21 processing or through manually entering the bank routing number and bank account information. Either option will be considered.
2.15	Summarize the process for posting payments to the BPUB including data transmitted, transport methods and encryption. What methods are used to ensure this data is secured?
2.16	Describe the level of redundancy that exists to ensure timely processing in the event of equipment breakdown. Specify if offer includes RAID on hard disk and UPS or other back up power supply.
2.17	Provide a list of outages over the previous 12-month period, including the date and time of the outage, whether they were scheduled or non-scheduled and the duration of the outage.
2.18	Explain the administrative tools available for BPUB employee access and provide samples of daily reports. Explain whether additional or custom reports can be requested.
2.19	It will be considered as an additional option if customers will have the ability to make a one-time donation to the “SHARE” fund (or various voluntary charitable organizations). Explain whether your product accommodates this and how this process works, from a customer interface to data output.
2.20	Explain the typical implementation process. In addition to estimated timelines and project milestones, we would like to know what data, interfaces and resources are required from the BPUB.
2.21	What Firm-provided training or testing on a live demo site is included in your proposal for BPUB employees?

## CERTIFICATE OF INTERESTED PARTIES-FORM 1295

Special message: Please read the Special Notification regarding HB 1295 effective January 1, 2016, implemented by the Texas Ethics Commission, which requires business entities to provide a completed Form 1295 to Brownsville PUB with signed contracts in order to execute them.

In 2015, the Texas Legislature adopted House Bill 1295. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

To implement the law, the Texas Ethics Commission (TEC) adopted new rules necessary to prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form, Form 1295, on October 5, 2015. The commission also adopted new rules as part of Chapter 46 of the Texas Administrative Code on November 30, 2015.

On January 1, 2016, TEC made a new filing application available on their website for business entities to use to both create and file Form 1295. Business entities will enter the required information on Form 1295 within the application and print a copy of the completed form, which will include a certification of filing with a unique certification number. An authorized agent of the business entity will need to sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be included with the signed contract to the governmental body or state agency in order for the governmental body to execute the contract.

Brownsville PUB will then notify the commission, using TEC's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract.

TEC will then post the business entity's completed Form 1295 to its website within seven (7) business days after receiving notice from Brownsville PUB acknowledging that it was received.

To obtain additional information on HB 1295, to learn more about TEC's process to create a new account or to complete an electronic version of Form 1295 for submission with a signed contract, please go to the following link: [https://ethics.state.tx.us/whatsnew/elf\\_info\\_form1295.htm](https://ethics.state.tx.us/whatsnew/elf_info_form1295.htm)

For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).
